Professional Summary

Java Full Stack Engineer with 5+ years of experience building enterprise applications using Java, Spring Boot, Angular, and legacy Java technologies including JSP, JSF, Servlets, and EJB. Experienced in REST API development, scalable application design, system modernization, authentication, performance tuning, and production support. Strong experience working across frontend, backend, database, and CI/CD environments in large enterprise applications.

Professional Experience

Tata Consultancy Services September 2023 – Present
Systems Engineer *Client: American International Group (AIG)*

- Modernized an enterprise Quote and Bind platform by migrating **JSF modules to Angular 17**, improving frontend performance and maintainability.
- Designed and developed **50+ REST APIs using Spring Boot** with layered architecture, validation, exception handling, and reusable service components.
- Worked on **scalable backend services** supporting 5,000+ business users, focusing on stateless APIs, efficient database access, and application performance.
- Contributed to **system design and application architecture**, including API contracts, service boundaries, data flow, and enterprise system integrations.
- Maintained and enhanced legacy **JSP, JSF, Servlet, and EJB** modules supporting critical insurance workflows.
- Led migration activities from **Java 11 to Java 17 and TomEE 8 to TomEE 10**, addressing compatibility, configuration, and deployment issues.
- Implemented **Okta authentication, OAuth2, JWT, and RBAC** across REST APIs to secure enterprise application access.
- Integrated **Splunk logging and monitoring** to improve production troubleshooting and application observability.
- Performed backend debugging, SQL optimization, API troubleshooting, and performance tuning for production-critical services.
- Collaborated with frontend, backend, QA, DevOps, and business teams across **Agile/Scrum** development and production releases.

Infosys July 2021 – July 2023
Senior Systems Engineer *Client: Vanguard*

- Developed and modernized enterprise applications using **Angular, Spring Boot, Java, JSP, and Servlets**.
- Migrated legacy application modules toward **Angular and Spring Boot**, reducing technical debt and improving maintainability.
- Designed reusable **Angular components and REST API integrations** for enterprise financial applications.
- Implemented **Micro Frontend architecture using Single-SPA**, enabling independent development and deployment of application modules.
- Developed CMS-to-API integration layers and reusable services to simplify application configuration and data flows.
- Applied **RxJS, reactive programming, and centralized error handling** for reliable frontend-to-backend communication.
- Contributed to **system design discussions, API contracts, application flows, and integration patterns** across frontend and backend services.
- Supported Java applications built with **JSP, Servlets, Spring Framework, and enterprise integration patterns**.
- Developed frontend unit tests using **Jasmine and Karma**, improving application reliability and regression coverage.
- Supported **CI/CD pipelines, application deployments, production debugging, and release validation**.

Education

SRM Institute of Science and Technology June 2017 – June 2021
Bachelor of Technology in Computer Science *Percentage: 79%*

Technical Skills

Languages	:	Java, TypeScript, SQL
Backend	:	Spring Boot, Spring Framework, REST APIs, JSP, JSF, Servlets, EJB
Frontend	:	Angular, RxJS, Single-SPA, Material UI, HTML, CSS
System Design	:	Scalable Architecture, REST API Design, Microservices, API Integration, Layered Architecture, Micro Frontends
Databases	:	MySQL, Redis
Messaging	:	Kafka
Cloud & DevOps	:	AWS EC2, AWS Lambda, AWS CloudWatch, Docker, Jenkins, GitHub Actions, CI/CD
Security	:	Okta, OAuth2, JWT, RBAC
Monitoring	:	Splunk, AWS CloudWatch
Tools	:	Git, GitHub, Bitbucket, Maven, Gradle, npm
Methodologies	:	Agile, Scrum, SDLC, TDD

Certifications

- AWS Certified Developer – Associate
- AWS Certified Solutions Architect – Associate
- AWS Certified Cloud Practitioner
- Microsoft Certified: Azure Fundamentals
